  - Some of the speakers brought tears to the eyes of the present. Also, some of the speakers had a clearer vision of the issue. And everyone was very grateful for the presence and presentation done by Kim C. Dine, Chief of Police Frederick City, whom has been a supporter and has help may Hispanics in Frederick.

#### **Public Comment:**

- Chief Kim C. Dine of Police Frederick City Police Department, he started by welcoming the commission to Frederick City, He has been the Chief of Police for the Past 6 years and is happy to inform the he has been able to have a great relationship with all the Hispanics in his jurisdiction.
- Rabbi Kosman Questioned about the influx of undocumented child, that we must be proactive in informing the Hispanic community of the need for documentation. People would understand the influx of increased population if they understand the contributions of this population.
- David Gray, Frederick County Commissioner said the fact that Frederick County has seen the largest increase from 4,664 in 2000 to 11,537 in 2006 may be a significant reason for some of the perceived hostilities. Regard the influx of the Hispanic community in Frederick County they are proud of the diversity. That the contentious voices of the area not all of Frederick County is under the same voice. We love our diversity and would like to dispel the image that we are not friendly.
- Frank Johnson Mayor – provided information regarding the increase on population. In terms of welcoming to the melting pot immigrants.
  - Chair Welch interceded and said that the commission was here to help in anyway that we can to take this information back to the governor, to see what can be done.

- Izzy Patoka, from the Governor's Office of Community Initiatives, first spoke about commissioner Bellavance thanked her for the time she has provided to the commission as a volunteer. Mr. Patoka thanked the commissioners and also thanked Frederick County and City for the Invitation to have a meeting in their mist.
- Vanessa Rini-Lopez, I emigrated from Louisiana, I just do not understand how Sherriff Jenkins obtained this type of authority (287G) to do the damage he is doing in the community. We do not know if the Sherriff's officers are knocking on the door or if it the regular police.
- Chief Dine interceded and was given a reassuring applause. Chief Dine I have tried to set community civil rights and assure people that ICE will be monitoring the Sheriffs office trying to do this.
- Ms. Maria Rodríguez, El Salvador,
- Maria Teresa Shultz, I have lived in Frederick county and know that Sherriff Jenkins and Commissioner Jenkins have made this illegal council
- Antonio Ramirez- 20 years resident in Frederick. What is the governor's position? We are afraid 20 are guys in jail. I came 20 years ago I am a citizen, I came to have a voice and vote. And I am afraid; the Frederick County Sherriff is destroying the quality of life we have, destroying families in Frederick.
- Maggie Lebherz – Life long resident of Frederick I am very happy that you are here, and this change was done without a public forum. Thank you again for coming to Frederick.
- Jose Gonzalez – Translated by Carmen Larson, I am originally from Guatemala, I have been here for the past 3 years and I represent part of the Hispanic community and we are worried that what is happening in Frederick County will happen all over. This 287G law is disintegrating families, destroying the trust and relationship that has been created with the police. Even though we trust the Police Officers from Frederick, however, when a police officer knocks on the door you do not know if the Officer is from Frederick or if he is from the Sheriffs office. I would like to ask to integrate into your agenda the immigration issues.
- Luis Borunda – USHYEE, provided information about the program which provided \$25,000 to Hispanic students at \$5,000.00 each for continuing education, \$14,000 for the Hispanic Youth Symposium.
  - Congratulated Dr. Lea Ybarra for being one of the Hero Awardees for the Youth Symposium
  - to Chair Welch for being the chair of the Hispanic youth Symposium
- Mr. Jorge Rivas, from the Mid Atlantic Hispanic Chamber of Commerce; Spoke about the history of immigration all over the world. And that he had seen it in the entire world including his own country Ecuador. Most people do not understand. Jews could not vote 100 years ago in the United States. This is a bella terra but there is a problem here. Spoke about Oscar Wilde whom wrote Our Town. He said he has lived here since 1971 in Frederick County. It is very important to do this to deal with discrimination. He asked the commission to find a positive way to deal with this discrimination problem.
- James Upchurch, Non Profit Housing Developer; bias statements about Hispanics in this area; wrote that stereotyping was a way to inoculated Hispanics and others as human beings. He was concerned with this.

- , resident of Frederick county; I hope the commission can see what our problems are and offer possible solutions.
- Audrey Creighton- Maryland Hispanic Bar Association; She offered as a member of the MD Hispanic Bar Association; that Hispanic lawyers would be able to assist and help in any way to contact her.
- Irene Packer Halsey- United Latinos for Greater Frederick; her organization and additional 5 organizations in Frederick would like the commission and the governor to help in this issue. She said time is of the essence. Dialog with ICE regarding the process, inform the community of the process and help so that the community would not be so afraid of someone knocking at their door.
- Ana Kontis; CASA de MARYLAND; I have been a resident of Frederick for over 10 years, survivor of domestic violence. I love Frederick and this County. That is why I am worried of what is happening regarding law 287. I have helped some of the families and it is very painful to see all of the confusion and the parents that have gone. Other families are worried about their own positions in Frederick. Some of them won't go out of their houses. They are worried that they will be stopped on the street and picked up and deported. The sheriff's office is making any excuse for deportation, or to put people in jail. And there is panic on the streets. I am here to represent Hispanics that and asking that some one will do something about this and offer help.
- Chair Maria Welch closed the meeting saying that the commission would be looking at the process and informing themselves better about what is happening here in Frederick County. Also, she thanked Chief Dine for all the work that he has been doing for the Hispanic community in Frederick City. Also, that there is an upcoming Latino Festival in Frederick in September 2008.
